WORK EXPERIENCE

Name	Type, Duration	Description
KRATZER IT SOLUTIONS (2015)	INTERNSHIP 1 MONTH	I shadowed technicians, set up Machines for clients, observed their management, and documented everything for school credit.
SOUNDMANUFACTORY MUNICH (2019-CURRENT)	IT/PR CONSULTANT, LD -	I manage web services, networking and tech on site at Events, and prepare social media posts. I also help in planning lighting concepts, and supervise the execution on Event days.
MINECRAFT (2019-CURRENT)	ADMINISTRATOR, MODERATOR -	I set up Servers, configure services and networking services, ensure flawless operation, and moderate player interactions. In total, I have helped with three separate projects, successfully.
FREELANCE (2018-CURRENT)	SELF-EMPLOYED -	I Freelance online, everything from coming up with Logo Concepts, to finished Products, to complete, custom Websites, on Websites such as Fiverr.

OTHER NOTES

I've worked in Teams before, I can work well under pressure, which became apparent to me, especially in the Event business, when planning, and organizing things on Event days. Since I change country every so often, I've gotten used to working flexible times, early, and late, and while it's not ideal, it's nothing new to me.

Starting as a Moderator in Minecraft was an excellent introduction to communicating efficiently, and consistently with others (Other staff members, and Guests/Players), and I've become more familiar with the job; It also gave me a new level of appreciation for others doing this job in bigger Communities and Servers.

Personally, I play a lot of computer games (Minecraft, GTA 5, Star Citizen, etc.), I love Metal working and Fabrication, and making my own furniture. I also write a lot, and I've published (mainly) Fan Fiction, but I'm working on stories of my own as well. To date, I've written over 2000 pages, or around 500,000 words in Stories (probably more than I've ever written for School).
